

Sand Dam Reservoir Association Newsletter

March 2020

UPDATES: Due to the coronavirus which is impacting us all, **the planned Bella's Fundraiser which was to be held on April 18th has been postponed indefinitely.** We will await word regarding when large gatherings can once again be considered safe and then determine what future fundraisers might be done.

SDRA BOARD MEETINGS: For health safety reasons the March meeting was cancelled and the Board will look at conducting at least the next few meetings from our homes - and hoping we can figure out the technology to make these meetings effective. We will also need to consider ***potential implications for the Annual Meeting if coronavirus concerns remain.***

HERBICIDES: The Board approved the contract submitted by ESS/SOLitude to conduct the annual lake survey, including permit from DEM to treat the lake if deemed necessary.

WEBSITE: SDRA is now working to update and begin utilizing the website over the next few months. We are excited about bringing this valuable communication vehicle back into the picture. Please have patience; it is a work in progress.

EARTH DAY:SATURDAY, APRIL 25TH

The Gloucester Town Council has agreed to support an Earth Day on April 25 and hopes to increase the number of planned routes. Areas around the lake will be cleaned and, as was done last year, SDRA will be listed as a sponsor. This is an opportunity for SDRA to connect with the Town and show concern for litter around the lake. As part of SDRA's Community Outreach Judy is providing leadership on this initiative. ***SOMEWHAT DIFFERENT PROCEDURES MAY BE PUT IN PLACE TO MINIMIZE CONTACT.*** More details will be forthcoming but, **for now, please mark your calendars and set this day aside to help.**
